STUDENT ENROLLMENT PROJECTIONS

Year	1	2	3	4	5
Full Time	60	61	62	63	65
Part Time	15	15	15	15	15
Total	75	76	77	78	80

Please provide a rationale regarding how student enrollment projections were calculated:

After a period of enrollment growth State Fair Community College has seen a slight enrollment decline the past 2 years. During this time interest in the Art program has remained consistent and we expect enrollment to grow slightly over the next few years.

Provide a rationale for proposing this program, including evidence of market demand and societal need supported by research:

Due to the strong student interest in Art at SFCC we have investigated the viability of offering an AFA degree with emphasis in Art. The curricular demands for additional Art courses make completing an Associate of Arts degree difficult for Art majors because of the number of necessary credit hours.

Additionally, this new degree is being added to simplify the transfer experience for an art student. The program specific courses are typically required courses for a four-year BFA degree in art. The degree would require no additional resources. The classes required are already being offered and classrooms are already available. Instructional resources are already in place.

7. Institutional Characteristics

- Characteristics demonstrating why your institution is particularly well-equipped to support the program.

State Fair Community College has several transfer agreements with area colleges and universities and we work closely with our transfer partners to ensure students have minimal issues when transferring. SFCC has recently implemented a navigator program which gives students a personal contact to help them efficiently plan their course schedule.
