Student Preparation

DEPARTMENT OF HIGHER EDUCATION & WORKFORCE DEVELOPMENT

New Program Report

Special Admissions Procedure or Student Qualifications required:

Admission to the Population Health Management degree program includes: Minimum cumulative GPA of 2.0 or higher, Completion of MWSU General Studies/Core42 Requirements and Completion of BIO101 Principles of Biology, BIO250 Anatomy and Physiology, ECO261 Principles of Microeconomics with a grade of C or higher, the student must declare interest in Population Health Management and complete a major declaration form. A pre-major declaration is also available for the PHM Program.

Specific Population Characteristics to be served:

n/a

Faculty Characteristics

Special Requirements for Assignment of Teaching for this Degree/Certificate:

The majority of faculty will possess a doctorate in a related field and will possess experience in healthcare or related setting with population health or public health programs. Some faculty will possess a master's degree or higher with experience in a health-related field.

Estimate Percentage of Credit Hours that will be assigned to full time faculty:

Full-time faculty will be assigned an estimated 90% of credit hours.

Expectations for professional activities, special student contact, teaching/learning innovation:

In order to earn a degree in Population Health Management students will be required to complete a professional practice placement which includes 135-hour placement and an applied population health management project (typically in the final semester of the program).

Course(s) Added

COURSE NUMBER	CREDITS	COURSE TITLE
HIF 330	3	Legal/Ethical Aspects of Healthcare Mgmt.

Free Elective Credits:

14

Internship or other Capstone Experience:

All Population Health Management program students are required to complete a minimum of 135 hours in a position in a healthcare or other approved setting focused on population health. The internship requires periodic progress reports, supervisor evaluation and a formal applied population health management paper.

Assurances

I certify that the program is clearly within the institution's CBHE-approved mission. The proposed new program must be consistent with the institutional mission, as well as the principal planning priorities of the public institution, as set forth in the public institution's approved plan or plan update.

I certify that the program will be offered within the proposing institution's main campus, CBHE-approved service region or CBHE-approved off-site location.

I certify that the program will not unnecessarily duplicate an existing program within the geographically applicable area.

I certify that the program will build upon existing programs and faculty expertise.

I certify that the program can be launched with minimal expense and falls within the institution's current operating budget.

I certify that the institution has conducted research on the feasibility of the proposal and it is likely the program will be successful. Institutions' decision to implement a program shall be based upon demand and/or need for the program in terms of meeting present and future needs of the locale, state, and nation based upon societal needs, and/or student needs.

Degree:	BS – Population Health Management
Major:	Population Health Management
Concentration:	Computer Information Systems
Catalog Year: 2020-2021	Expires: 2026-2027

DEGREE REQUIREMENTS

- Earn a minimum of 120 credit hours (100 level and higher, maximum of 6 CED credit hours applicable).
- Earn a minimum of 30 credit hours in upper division courses. Lower division transfer courses accepted as meeting upper division departmental course requirements cannot be used to fulfill this requirement.
- Earn 30 of the last 45 credit hours at MWSU in institutional course work (exclusive of credit by examination).
- Participate in required departmental and campus wide assessments.
- Earn an overall GPA of at least 2.0 and a major GPA of at least 2.0.
- Fulfill the Missouri Constitution requirement.
- Successfully pass the Missouri Higher Education Civics Achievement exam.

GENERAL STUDIES REQUIREMENTS

General Education focuses on a broad range of courses that help students acquire academic skills and knowledge necessary for understanding, communicating and performing in a diverse and complex world. Bachelor degrees require a general studies curriculum with a minimum of 42 credit hours. Specific course options can be found through the student's GPS record in Goldlink or at missouriwestern.edu/registrar/gened.

INDEPENDENT

NEW PROGRAM PROPOSAL FOR ROUTINE REVIEW

When finished, please save and email to: he.academicprogramactions@dhe.mo.gov

Sponsoring Institution: Missouri Western State University

Program Title: Population Health Management

Degree/Certificate: BS-Bachelor of Science

If other, please list: Click here to enter text

Options: Restricted electives

Delivery Site: Campus- St. Joseph Mo.

CIP Classification: 51.2201

Implementation Date: 8/30/2021

Is this a new off-site location? Yes No

If yes, is the new location within your institution's current CBHE-approved service region?

**If no, public institutions should consult the comprehensive review process*

Is this a collaborative program? Yes No

**If yes, please complete the collaborative programs form on last page.*

Please list similar or comparable programs at Missouri public institutions of higher education.

**For public institutions only*

Similar programs at Missouri public institutions of higher education include: University of Missouri Bachelor of Health Science in Public Health

CERTIFICATIONS:

The program is within the institution's CBHE approved mission. *(public only)*

The program will be offered within the institution's CBHE approved service region. *(public only)*

The program builds upon existing programs and faculty expertise

The program does not unnecessarily duplicate an existing program in the geographically-applicable area.

The program can be launched with minimal expense and falls within the institution's current operating budget. *(public only)*

PROGRAM CHARACTERISTICS AND PERFORMANCE GOALS

Although all of the following guidelines may not be applicable to the proposed program, please carefully consider the elements in each area and respond as completely as possible in the format below.

Quantification of performance goals should be included wherever possible.

1. Student Preparation

- Any special admissions procedures or student qualifications required for this program which exceed regular university admissions, standards, e.g., ACT score, completion of core curriculum, portfolio, personal interview, etc. Please note if no special preparation will be required.

Admission to the Population Health Management degree program includes: Minimum cumulative GPA of 2.0 or higher, Completion of MWSU General Studies/Core42 Requirements and Completion of BIO101 Principles of Biology, BIO250 Anatomy and Physiology, ECO261 Principles of Microeconomics with a grade of C or higher, the student must declare interest in Population Health Management and complete a major declaration form. A pre-major declaration is also available for the PHM Program.

- Characteristics of a specific population to be served, if applicable.
NA

2. Faculty Characteristics

- Any special requirements (degree status, training, etc.) for assignment of teaching for this degree/certificate. The majority of faculty will possess a doctorate in a related field and will possess experience in healthcare or related setting with population health or public health programs. Some faculty will possess a master's degree or higher with experience in a health-related field.
- Estimated percentage of credit hours that will be assigned to full time faculty. Please use the term "full time faculty" (and not FTE) in your descriptions here.
Full time faculty will be assigned an estimated 90% of credit hours.
- Expectations for professional activities, special student contact, teaching/learning innovation.
In order to earn a degree in Population Health Management students will be required to complete a professional practice placement which include 135-hour placement and an applied population health management project (typically in the final semester of the program).

3. Enrollment Projections

- Student FTE majoring in program by the end of five years.
Projections are based on pre-COVID-19 program performance goals with the addition of 5% per year growth which aligns with MoExcels goals for non-nursing allied health professions at MWSU. Approximately 41-43 student FTE are expected to major in the program by the end of five years.
- Percent of full time and part time enrollment by the end of five years.
The majority (90%) of Population Health Management students are expected to be enrolled full time with the remaining 10 % expected to be part time students.

STUDENT ENROLLMENT PROJECTIONS

YEAR	1	2	3	4	5
Full Time	31	33	35	37	39
Part Time	4	4	4	4	4
Total	35	37	39	41	43

4. Student and Program Outcomes

- Number of graduates per annum at three and five years after implementation.
After one year, the expected graduation rate is expected to reach 10 students per year. After three years, the expected to increase to 12 students and at five years the graduation rate is expected to be 15 students per year.
- Special skills specific to the program.
NA
- Proportion of students who will achieve licensing, certification, or registration.
Although degree completers from the Population Health Management program are not required to complete a certification, they will be strongly encouraged to sit for the Community Health Education Specialist (CHES) exam through the National Commission for Health Education Credentialing
- Performance on national and/or local assessments, e.g., percent of students scoring above the 50th percentile on normed tests; percent of students achieving minimal cut-scores on criterion-referenced tests. Include expected results on assessments of general education and on exit assessments in a particular discipline as well as the name of any nationally recognized assessments used.
All degree completers are required to pass an applied population health management exit exam or project. They are also encouraged to sit for the Certified Health Education Specialist Exam post-graduation.
- Placement rates in related fields, in other fields, unemployed.
82% in of program completers employed in a health- related field, 12% pursuing further education and 6% in non-health related field.
- Transfer rates, continuous study.
Click here to enter text

5. Program Accreditation

- Institutional plans for accreditation, if applicable, including accrediting agency and timeline. If there are no plans to seek specialized accreditation, please provide rationale.

While there are no immediate plans for accreditation, this is a long-term goal of the program.

6. Program Structure

- A. Total credits required for graduation: Total credit hours required for graduation include all general education requirements as well as major core classes and restricted health for Population Health management degree, total credits required for graduation 120.
- B. Residency requirements, if any:
NA
- C. General education: Total credits:
42

Courses (specific courses OR distribution area and credits)

Course Number	Credits	Course Title

SOC360	3	Sociology of Health Illness and Medicine

E. Free elective credits: 14
(sum of C, D, and E should equal A)

F. Requirements for thesis, internship or other capstone experience:
All Population Health Management program students are required to complete a minimum of 135 hours in a position in a healthcare or other approved setting focused on population health. The internship requires periodic progress reports, supervisor evaluation and a formal applied population health management paper.

G. Any unique features such as interdepartmental cooperation:
Content area courses required for the program are taught through the content area departments.

7. Need/Demand

- Student demand
- Market demand
- Societal demand

I hereby certify that the institution has conducted research on the feasibility of the proposal and it is likely the program will be successful.

On July 1, 2011, the Coordinating Board for Higher Education began provisionally approving all new programs with a subsequent review and consideration for full approval after five years.
