New Program Report

Date Submitted:

03/12/2024

Institution

Ranken Technical College

Site Information

Implementation Date:

5/12/2024 12:00:00 AM

Added Site(s):

Selected Site(s):

Ranken Technical College, 4431 Finney Avenue, St. Louis, MO, 63113

Ranken West-Lincoln County Workforce Development Center, 651 John Deere Dr., Troy, MO, 63379

CIP Information

CIP Code:

150499

CIP Description:

Any instructional program in electromechanical instrumentation and maintenance technologies not listed above.

CIP Program Title:

Electromechanical and Instrumentation and Maintenance Technologies/Technicians, Other

Institution Program Title:

Industrial Automation Technology

Degree Level/Type

Degree Level:

Associate Degree

Degree Type:

Associate in Technology

Options Added:

Collaborative Program:

N

Mode of Delivery

Current Mode of Delivery

Hybrid

Student Preparation

Special Admissions Procedure or Student Qualifications required:

N/A

Specific Population Characteristics to be served:

Dual degree option for our Electrical Automation Technology students.

New Program Report

COURSE NUMBER	CREDITS	COURSE TITLE
ELC 2010	13	PLC's and HMIs Graphical Displays
EEL 1120	13	Electrical Applications
ELA 2015	13	Automated Motors and Drives Applications
IMT 1000	15	Mechanical and Power Fluid Systems
EEL 1220	14	Intro to Automation & Control Circuits

Free Elective Credits:

0

Internship or other Capstone Experience:

N/A

Assurances

I certify that the program will not unnecessarily duplicate an existing program of another Missouri institution in accordance with 6 CSR 10-4.010, subsection (9)(C) Submission of Academic Information, Data and New Programs.

I certify that the program will build upon existing programs and faculty expertise.

I certify that the institution has conducted research on the feasibility of the proposal and it is likely the program will be successful. Institutions' decision to implement a program shall be based upon demand and/or need for the program in terms of meeting present and future needs of the locale, state, and nation based upon societal needs, and/or student needs.

RANKEN

TECHNICAL COLLEGE

Industrial Automation Technology

CIP: 15.0499

AT/AS

Program Outcomes:

- Construct electrical circuits utilizing National Electrical Code guidelines.
- Install, maintain, troubleshoot and repair industrial, commercial, and residential electrical systems.
- Program and configure equipment controlling various types of electrical motors and automated processes.
- Construct and install various mechanical, hydraulic, and pneumatic systems to standard industry codes and job specifications.

INDUSTRIAL AUTOMATION TECHNOLOGY COURSES		HOURS	PREREQUISITE
First Semester	EEL 1120 Electrical Applications	13	MTH 1110 (Co. Req)
Second Semester	EEL 1220 Intro to Automation & Control Circuits	14	
Third Semester	ELA 2015 Automated Motors and Drives Applications	13	EEL 1120
Fourth Semester	ELC 2010 PLCs and HMIs Graphical Displays	13	EEL 1120
Fifth Semester	IMT 1000 Mechanical and Power Fluid Systems	15	
	Total Technical Credit Hours Required	68	

NOTE: Use the same course descriptions from the already established courses.

IMT 1000 will be offered in STL.

- Start date is June 2024, 8:05-2:25 M-F, Instructor Brad Thomas, M103

Note:

- Cancel INT 1120 Indust Mechanical Systems – Move student to IET 2400/2101 (Note Mark will move 2 current IET students to this course.)

IMT 1000 will need to run in Troy. Still working on when that can occur.

- Need to confirm with Keyvan on the schedule for the Customized Training with Toyota.

Subject: Upcoming Program Changes
Attachments: IAT Change 2024.docx

Good morning,

The Education Committee recently approved two degree changes recently:

1. **NEW AS/AT** degree called Industrial Automation Technology
2. **NAME CHANGE** – Industrial Engineering Technology will be called Industrial Maintenance Technology

Industrial Automation Technology (See attached)

- Offered as early as Summer 2023-24, if all approvals are obtained in the appropriate amount of time. (HLC Approval is already obtained).
- Meant to be a dual degree option for Electrical Automation Technology (EAT) students.
- EAT Industry Advisory Board is requesting students to obtain these skills and current students were finding out that employers are expecting them to have these skills.
- Degree is ultimately the EAT degree plus the Industrial Engineering Technology IMT 1000 Mechanical and Power Fluid Systems
- Please note that is best to enroll these students as EAT students first and add the additional course to the end to obtain both degrees.
- Students could get a third associates by adding the CST 2215 course for the Control Systems Technology degree.
- If all approvals are obtained soon, students currently in EAT can enroll into the IMT 1000 Mechanical and Power Fluid Systems course offered this summer.

Industrial Maintenance Technology

- This is a name change for the current Industrial Engineering Technology Degree with the goal of increasing enrollment.
- Name change proposal was provided with input from advisory boards and faculty within department with the thought that the word “Engineering” was misleading prospective students.
- Students will enroll under this new name beginning in Fall 2024.
- This applies to all locations where Industrial Engineering Technology is currently located (STL, PRY, ASH)

ALSO, remember we have existing degree/certificates now getting offered at some of our outside locations starting this Fall:

Perryville:

- HVAC Evening
- FWL Evening
- INT Evening

Ashland

- Welding Day (Same format as Perryville)
- Industrial Maintenance Technology Day (Note internships will be 16 weeks long with students in class 3 days/week and on internship 2days/week)
- INT Evening

- CRP Evening

If you have any questions or concerns that we overlooked, please let me know.

Thanks,

Shannon Brueggemann
