## Proprietary School Certification Actions and Reviews

Coordinating Board for Higher Education  
September 16, 2020

### BACKGROUND

The Missouri Department of Higher Education and Workforce Development's Proprietary School Certification Program (§§ 173.600-618, RSMo) provides oversight of certain types of Missouri-based and out-of-state private, postsecondary education providers. This board item provides an update on current issues regarding the Proprietary School Certification Program as well as a summary of recent program actions.

### CURRENT STATUS

All program actions that have occurred since the June 17, 2020, Coordinating Board for Higher Education meeting are reported in the attachment to this item. The report includes information concerning anticipated actions on applications to establish new postsecondary education institutions, exemptions from the department's certification requirements, and school closures.

Staff has responded to the need for additional trained essential workers by implementing an expedited temporary approval process for schools seeking to offer critical programs. Temporary approval allows institutions to begin enrolling and training students in program areas approved for the Fast Track Workforce Incentive grant. A temporary certificate is effective for a maximum of 120 days, during which schools must work with department staff to meet all regular certification requirements. Failure to meet all requirements within the 120 day window will result in the revocation of approval to operate. As of the date of preparation of this information item the department has approved four temporary certificate schools, which are offering programs in nursing, phlebotomy, transportation, and welding.

### RECOMMENDATION

This is an information item only.

The mission of the school is to “provide the highest quality educational experience for individuals seeking affordable, personalized, technical programs and general education in response to the ever changing employment needs of the community.” The school is accredited by the Accrediting Bureau of Health Education Schools (ABHES).

### **Exemptions Granted**

Global University  
Springfield, Missouri

This not-for-profit institution was granted exemption as “a non-profit religious school that is accredited by the American Association of Bible Colleges, the Association of Theological Schools in the United States and Canada, or a regional accrediting association, such as the North Central Association, that is recognized by the Council on Postsecondary Accreditation or its successor organization and the United States Department of Education.” The school offers certificate and degree programs in ministry and Christian education.

### **Schools Closed**

Academy of Dental Assisting

The school was approved to offer a certificate program in dental assisting. The school’s owners made the decision to relinquish certification and permanently closed effective June 30, 2020. Department staff monitored the closure process and verified the appropriate storage of all student-related records, as required by Missouri statutes.

Boston University

This regionally accredited school was approved to offer graduate programs in social work, physical and occupational therapy, and athletic training. The school was approved to participate in the State Authorization Reciprocity Agreement (SARA) and relinquished its Missouri certification effective June 30, 2020. Department staff monitored the process and verified the appropriate storage of all student-related records, as required by Missouri statutes.

Global University

This regionally accredited school was approved to offer certificate and degree programs in ministry and Christian education. The school was approved for exemption as and relinquished its certification effective July 15, 2020. Department staff monitored the process and verified the appropriate storage of all student-related records, as required by Missouri statutes.

#### International Institute of Metro St. Louis

The school was approved to offer certificate programs in nurse assisting, housekeeping, and sewing. The school's owners made the decision to relinquish certification and permanently closed effective June 30, 2020. Department staff monitored the closure process and verified the appropriate storage of all student-related records, as required by Missouri statutes.

#### International School of Professional Bartending

The school was approved to offer a certificate program in mixology. The school's owner made the decision to relinquish certification and permanently closed effective June 30, 2020. Department staff monitored the closure process and verified the appropriate storage of all student-related records, as required by Missouri statutes.

#### Missouri Taxidermy Institute

The school was approved to offer a certificate program in taxidermy. The school's owners made the decision to relinquish certification and permanently closed effective June 30, 2020. Department staff monitored the closure process and verified the appropriate storage of all student-related records, as required by Missouri statutes.

#### Ohio Technical College

This nationally accredited school was approved to recruit Missouri students for its certificate and associate degree programs in welding, automotive, and diesel training. The school's owners made the decision to relinquish its certification effective June 30, 2020. Department staff monitored the process and verified the appropriate storage of all student-related records, as required by Missouri statutes.
