

# ELEMENTARY

You may think it's way too early to start preparing for your child's college education right now. But in reality, now is the perfect time to consider how you're going to pay for tuition, books, housing, meal plans and activity fees.

According to data from the National Center for Education Statistics, 58 percent of first-time, full-time students complete their undergraduate studies in six years or less. Are you prepared to pay for all or part of your child's college education? If not, you may have to rely on savings, scholarships, grants and student loans to cover your unmet need. As college costs continue to rise, be prepared to handle these expenses by the time your child is ready to graduate from high school.

The U.S. Department of Education's Office of Federal Student Aid provides over \$100 billion in federal aid in the form of grants, work-study programs and loans to students who qualify. Visit [www.FAFSA4caster.ed.gov](http://www.FAFSA4caster.ed.gov) to get an estimate of the amount of federal aid your child could receive if you applied today. For more information about federal aid for college, visit [www.studentaid.gov](http://www.studentaid.gov).

Aside from these financial pointers, here are a few other things to keep in mind when planning for your child's college education:

- Create a college-friendly environment in your home. Display college degrees belonging to members of your family in areas where your children spend a lot of time (e.g., family room, study area, etc.)
- Stress the importance of academics throughout your child's academic career.
- Develop a daily habit of reading to your child.

- Start researching scholarship opportunities early! For a list of scholarships currently available to elementary school students, visit the following sites:

- [www.finaid.org/scholarships/age13.phtml](http://www.finaid.org/scholarships/age13.phtml)
- [www.collegescholarships.org/scholarships/elementary.htm](http://www.collegescholarships.org/scholarships/elementary.htm)

Open a savings account at a local bank and watch your money grow. Routinely saving money means your money is actually making you money while interest accumulates. In the end, you'll have more money to put towards your child's college expenses. When you receive your paycheck or other money, deposit or electronically transfer a portion of the funds into a college savings account. Remember, even very small sums of money add up...over time...with interest.

CLINT ZWEIFEL  
 MISSOURI STATE TREASURER

Not sure where to begin when planning for college? A 529 college savings plan is a great place to start. 529 college savings plans are state-sponsored, tax-advantaged programs that help you save for college tuition, certain housing expenses, books, supplies and other qualified higher-education expenses. Missouri citizens have the option of investing in the MOST 529 Plan. With MOST, saving for college is affordable with low \$25 minimum contributions and significant federal and state tax advantages.

If you qualify, apply and are approved for the matching grant program, contributions to your MOST 529 Plan account will be matched dollar-for-dollar, up to \$500 per year. For more information, visit [www.missourimost.org](http://www.missourimost.org).

**Brooke Bernhardt** began preparing for college at an early age. As she looks forward to starting her college career in fall 2013, Brooke is more aware of the role good grades and involvement in extracurricular activities played in the college application process. While attending high school, Brooke was an active participant in several school-related activities, such as softball, cheerleading, Future Business Leaders of America, and the National Honor Society—all of which helped to shape her feelings about college.

As Brooke prepares to pursue a bachelor's degree in nursing, she encourages younger students and their parents to become more involved with the college-prep process. Get a jump on various scholarship and grant opportunities with the Missouri Department of Higher Education. Remember, it's never too early to start mapping out your plans for college.

# NEVER TOO EARLY

COLLEGE PREP STARTS NOW!

# NEVER TOO EARLY MIDDLE SCHOOL/JUNIOR HIGH

Logan, 13

## Top three reasons to go to college!

### More opportunity!

College graduates have more choices than those without a college education. A college degree allows

you to choose from more careers, choose higher paying jobs, choose jobs you really like, and choose where you want to live.

### More Money!

Continuing your education after high school increases your chances to make more money. On average, someone with a bachelor's degree earns about 62 percent more than someone with only a high school diploma. According to the U.S. Bureau of Labor Statistics, the 2011 unemployment rates in the U.S. were at 17.0 percent for those with less than a high school diploma, 9.4 percent for high school graduates but only 7.9 percent for those less than a bachelor's degree, including those with associate's degrees, and 4.0 percent for those with bachelor's degrees or higher.

### More Benefits!

College graduates usually enjoy a better quality of life, higher savings, more consumer power and are able to enjoy more hobbies and leisure activities. Also, jobs requiring a college education tend to offer better health benefits and insurance.

Make the most of middle school.

- Pay attention in class and be ready when test time rolls around.
- Don't give up. If you're having a hard time, ask for help.

- Get involved in activities through your school or community; it's a chance to explore your interests, meet new people and learn new things.

Get in the habit of knowing your school's rules. You may be eligible for an A+ scholarship if you complete high school with a clean disciplinary record.

Find the path that's right for you. As you get ready for high school, you'll have lots of choices and a big say in what you study. The choices you're about to make for 9<sup>th</sup> grade—as well as 10<sup>th</sup>, 11<sup>th</sup> and 12<sup>th</sup>—will affect the choices you'll have for the rest of your life. Your school counselor or teachers, as well as family and friends, will have the answers (or know someone who does) to many questions about life after high school. When you sign up for your high school classes, ask as many questions as it takes to get the information you need.

## Know your options.

You have a lot of choices right here in Missouri. When selecting the one that's best for you, know your options. There are lots of schools and they offer all kinds of degrees and programs. Learn more about the different types of colleges and universities ([www.dhe.mo.gov/ppc/exploringmyoptions.php](http://www.dhe.mo.gov/ppc/exploringmyoptions.php)) available in Missouri, and check out our Institution, Program and Degree Search ([www.highered.mo.gov/ProgramInventory/search.jsp](http://www.highered.mo.gov/ProgramInventory/search.jsp)) to help match up your interests and goals with the schools that are best for you.

## Do you know how much college costs?

Some people assume that college is out of their reach because of the cost. Before you blow it off, learn the facts.

Colleges come in all prices - depending on the type of school you choose. Check out the average cost to attend college at a variety of Missouri schools at [www.dhe.mo.gov/data/tuitionandfees.php](http://www.dhe.mo.gov/data/tuitionandfees.php). Financial aid is available to offset college expenses. In fact, almost half of all college students receive some sort of financial aid.

Students can receive a combination of grants, scholarships, work-study jobs and loans. Learn more at [www.dhe.mo.gov/ppc](http://www.dhe.mo.gov/ppc). Get an idea for how much federal student aid you might receive. Knowing even an estimate can help you and your parents as you make plans to save for your education.

The FAFSA4caster at [www.fafsa4caster.ed.gov](http://www.fafsa4caster.ed.gov) can help. The "4cast" provided by the FAFSA4caster will give you an estimate of the types of financial aid you may qualify for and how much money you might receive. (The Free Application for Federal Student Aid is an annual application for financial aid, first filled out the year before attending college.)

## Make a plan. Start saving.

Open up the lines of communication. Talk to your parents about your college dreams and ways to save toward that goal. The earlier you start, the better off you'll be!

Have your parents look into college savings programs. For example, the Most 529 Plan

([www.missourimost.org](http://www.missourimost.org)) is specifically designed to help Missouri parents save money for their kids to go to college.

Money earned from a paper route or an after-school job provides an additional opportunity to save for college. Instead of spending all your hard-earned cash on digital downloads or clothes, make arrangements to have a portion of your paycheck deposited into a savings account.

Interested in fine tuning your spending and saving habits? Visa's Financial Soccer ([www.financialsoccer.com](http://www.financialsoccer.com)) is a fast-paced, multiple-choice question game that will help you learn the personal finance basics.

Developed and maintained by Missouri students who welcome your questions and comments. *Journey to College* provides an avenue to obtain a variety of information geared toward future college students. To ensure that you're prepared for all that college has to offer, click "Like" at [www.facebook.com/journeytocollege](http://www.facebook.com/journeytocollege).

If you prefer to tweet, the MDHE has a Twitter account for students just like you. Receive short updates regarding various federal and state aid deadlines, scholarship opportunities and money management tips by following *Journey to College* at [www.twitter.com/Journey2College](http://www.twitter.com/Journey2College).

## COLLEGE PREP STARTS NOW!

Alex, 17

Hanna, 17

# HIGH SCHOOL

Education beyond high school can give you choices. Advance your education, expand your possibilities!

### UNDERCLASSMAN

Be well prepared for college and in a better position to qualify for merit-based scholarships.

Talk to your counselor. Find out what classes to take in high school, how to sign up for tests like the ACT, and get ideas for where you might get money for college.

Join the Missouri Department of Higher Education's *Journey to College* social media efforts on Facebook and Twitter to keep up on the latest regarding college, financial literacy and financial aid. For more information visit, [www.facebook.com/journeystocollege](http://www.facebook.com/journeystocollege) and [www.twitter.com/journey2college](http://www.twitter.com/journey2college).

### Recommended High School Core Classes

Communication Arts	4 units
Social Studies	3 units
Mathematics	3 units
Science	3 units
Fine Arts	1 unit
Physical Education	1 unit
Health Education	0.5 unit
Personal Finance	0.5 unit
Electives	7 units*

\*All students should complete at least 3 elective units total in foreign language and/or other courses within high school core content areas defined above. Two units of a single foreign language are strongly recommended for college-bound students.

Verify college admission requirements with your counselor.

Research taking Advanced Placement or College-Level Examination Program exams; it may help your wallet down the road. If you graduate from college even one semester early by taking college or AP courses while still in high school, you could save thousands of dollars in tuition and housing costs. The MDHE offers the Advanced Placement Incentive Grant for high school students who take and score well on AP tests in mathematics and science. To learn more, visit [www.dhe.mo.gov/ppc/grants/advancedplacement.php](http://www.dhe.mo.gov/ppc/grants/advancedplacement.php).

Make sure you know and follow your school's rules and procedures. Protect your A+ eligibility ([www.dhe.mo.gov/ppc/grants/apluscholarship.php](http://www.dhe.mo.gov/ppc/grants/apluscholarship.php)) by avoiding risky behavior.

Get involved in extracurricular activities. Being involved in clubs, sports or the school newspaper gives you an opportunity to explore your interests and can provide you valuable leadership experience. Be sure to keep track of offices held, awards received as well as community service opportunities you participate in. This information will be asked for on scholarship, college and job applications.

### Keep exploring different college and career options.

Learn more about the different types of colleges and universities ([www.dhe.mo.gov/ppc/exploringmyoptions.php](http://www.dhe.mo.gov/ppc/exploringmyoptions.php)) available in Missouri, and check out the MDHE's Institution, Program and Degree Search ([www.highered.mo.gov/ProgramInventory/search.jsp](http://www.highered.mo.gov/ProgramInventory/search.jsp)) to help match up your interests and goals with the schools that are best for you.

### Start researching careers that interest you.

Not sure where to start? Learn about all kinds of different career options with Missouri Connections ([www.missouriconnections.org](http://www.missouriconnections.org)). The Missouri

Department of Elementary and Secondary Education has outlined several "Career Clusters" to help you identify your career interests. Choose a career path that compliments your academic abilities.

Take courses that will prepare you for college.

Consider signing up for ACT or SAT preparatory courses. Be sure to check out the free ACT ([www.actstudent.org/testprep/](http://www.actstudent.org/testprep/)) and SAT ([sat.collegeboard.org/practice](http://sat.collegeboard.org/practice)) practice test questions, test tips and test descriptions for useful pointers.

Continue exploring different college options. Schools come in a variety of sizes and offer a huge range of majors and degrees. Two-year, four-year, public, private... it's all up to you ([www.dhe.mo.gov/ppc/exploringmyoptions.php](http://www.dhe.mo.gov/ppc/exploringmyoptions.php)).

Research the average cost to attend college in Missouri at [www.dhe.mo.gov/data/tuitionandfees.php](http://www.dhe.mo.gov/data/tuitionandfees.php).

Get a feel for the type of salary it will take to live the life you're planning. Log on to the Missouri Connections website ([www.missouriconnections.org](http://www.missouriconnections.org)) today! Occupational Profiles provide both the state and national salary averages for a number of professions, including Museum Technician, Landscape Technician, Event Planner, Athletic Trainer, and Preschool Teacher. Interested in more than one career path? Consider job shadowing professionals employed in the fields that interest you. This may aid in narrowing down your career choices.

### JUNIOR YEAR

#### Register to take college entrance exams this spring.

Take the PSAT. Remember, you must take it in the 11<sup>th</sup> grade to qualify for some scholarships.

If you don't feel like you're ready yet, both the ACT ([www.actstudent.org/testprep/](http://www.actstudent.org/testprep/)) and the SAT (<http://sat.collegeboard.org/practice>) offer prep classes to help you get ready for the test. Remember, you can take these tests multiple times if you are not happy with your score. If you're interested in obtaining a Bright Flight scholarship, the qualifying score for your class will be released during the fall of your senior year. You can take the test as many times as you want through the June test date. The highest score you achieve will be used to determine if you are eligible for a Bright Flight award.

### Research academic programs that interest you.

Take advantage of opportunities to meet with college representatives visiting your high school, and don't be afraid to ask questions. Go prepared with a list of questions regarding the cost, financial aid, admissions, student population, academics, social life, surrounding community, housing, dining, recreational facilities, student services, security, etc.

### Visit college campuses.

Get a feel for the facilities, teachers, students and surrounding communities.

Think of your junior year as an ideal time to explore career interests. Find out if you can do an internship at a place you find interesting. And even if you've been on a college prep track your whole life, your junior year is a great time to take classes that will introduce you to some not-so-run-of-the-mill fields, like culinary arts, forensics, etc.

### Keep looking ahead.

Review the "Senior" section of "Never Too Early" to target other activities or research you can start doing now.

# SENIOR YEAR

### Fall

- Narrow your college choices and visit the one(s) that interest you. Consider characteristics such as the size of each school and its classes, location, campus environment, housing, social activities, facilities, job availability and financial assistance.
- Visit those schools' websites to learn more about admissions requirements, the application process and financial aid deadlines. If you don't find the answers you're looking for, pick up the phone or email the school. Be persistent.
- Join the Missouri Department of Higher Education's *Journey to College* social media efforts on Facebook and Twitter to keep up on the latest regarding college, financial literacy and financial aid. For more information visit, [www.facebook.com/journeystocollege](http://www.facebook.com/journeystocollege) and [www.twitter.com/journey2college](http://www.twitter.com/journey2college).

### Winter

- Don't quit extracurricular activities like sports, drama, or newspaper. Seniors usually take over leadership roles in activities like these. Being in charge of underclassmen can provide you with valuable experience and proven leadership skills that will serve you in college and beyond.
- Explore the wide variety of financial aid opportunities available to students. The MDHE administers several grant and scholarship programs ([www.dhe.mo.gov/ppc/grants](http://www.dhe.mo.gov/ppc/grants)), and many private and community organizations also provide scholarship funds ([www.dhe.mo.gov/ppc/grants/scholarshipsearchtips.php](http://www.dhe.mo.gov/ppc/grants/scholarshipsearchtips.php)) based on such items as course of study, academic merit, or individual talents. Be aware that you should never have to pay a fee for scholarship money.
- Be sure to complete the Free Application for Federal Student Aid ([www.fafsa.gov](http://www.fafsa.gov)) if you plan to use some sort of financial aid for college. The FAFSA is the first step in getting financial assistance.

- Apply for a Federal Student Aid PIN. The MDHE encourages both current and future college students and at least one parent, for dependent students, to secure a FAFSA PIN.
- Have your parents file their taxes early so you can file your FAFSA sooner. If you or your parents have not filed taxes for the previous year, it's okay to use estimates. You will need to update these numbers once your parents' taxes are complete. You may submit FAFSA updates until July 31 to qualify for most state aid programs.
- Completing your FAFSA early means you'll get information about your potential aid award amounts sooner, which might be vital in determining which school you ultimately choose.
- Attend a FAFSA Frenzy event ([www.dhe.mo.gov/ppc/fafsa\\_completion.php](http://www.dhe.mo.gov/ppc/fafsa_completion.php)) in your area for free, professional help completing the FAFSA.

### Spring

- Don't let senioritis interfere with your goals; continue on your path to a college education. Second-semester grades may impact your scholarship opportunities.
- If you did not score as high as you expected on the ACT or SAT, you can take these tests again. You may want to look into test preparation courses to help improve your score. If you're interested in obtaining a Bright Flight scholarship, the qualifying score for your class will be released during the fall of your senior year. You can take the test as many times as you want through the June test date. The highest score you achieve will be used to determine if you are eligible for a Bright Flight award.
- Your FAFSA must be filed by April 1 in order to be eligible for state financial assistance such as the Access Missouri program ([www.dhe.mo.gov/ppc/grants/accessmo.php](http://www.dhe.mo.gov/ppc/grants/accessmo.php)).

- Watch for an email notification or check your mail for your Student Aid Report; it will contain your Expected Family Contribution, which is used to determine how much financial aid you are eligible to receive.
- Review your college acceptance letters and compare financial aid packages.
- Contact your school's financial aid office if you have any questions about the aid that has been offered to you.
- When you decide which school you will attend, notify that school and submit any required financial deposit.

#### Find a school suited to your needs!

- Type of school
- Academic programs and degrees
- Location and size
- Costs and available financial assistance
- Academic reputation
- Sports or extracurricular activities

#### Shop around!

- To find schools that match your program and degree needs, visit [www.highered.mo.gov/ProgramInventory/search.jsp](http://www.highered.mo.gov/ProgramInventory/search.jsp).
- Compare information from college representatives, bulletins and websites.
- Find out employment rates for graduates.
- Ask about job placement services.
- Know if a school is accredited; it could affect your ability to get financial aid or transfer credits.
- Compare total costs in relation to financial assistance packages.

#### Make campus visits!

- Tour the campus; talk with students.
- Meet with a financial assistance representative.
- Research your academic program with an academic advisor or faculty member.
- Verify admission requirements with an admissions counselor.

- Determine the actual cost of attending the school.
- Inquire about a class visit.
- Tour residence halls and eat in a dining hall if you are planning to live on campus.
- Tour the town.

#### Get advice!

- Ask your school counselor to explain the options available to you.
- Talk to your parents about your college expectations. Visit with professionals working in the field you plan to study.

#### Meet deadlines!

- Admission and housing applications
- Required institutional fees (If you're a low-income student, you may be able to obtain fee waivers for some of these deposits and fees.)
- FAFSA and other financial assistance forms

Free Application for Federal Student Aid filers often need help getting their financial ducks in a row. If you fall into this category, free help is available at FAFSA Frenzy. Financial aid professionals will be on hand at locations throughout the state in January, February and March to help students and parents fill out the FAFSA. To see a complete list of FAFSA Frenzy locations in your area, visit the MDHE's website at [www.dhe.mo.gov/ppc/fafsa\\_completion.php](http://www.dhe.mo.gov/ppc/fafsa_completion.php). FAFSA Frenzy is a program of College Goal Sunday.
