ANNUAL REPORT 2022

OVERVIEW

The Missouri Department of Higher Education & Workforce Development (MDHEWD) works with the state's colleges and universities to help students achieve their education and career goals, as well as work toward increasing the percentage of Missourians with degrees and certificates to provide a skilled and knowledgeable workforce. The department works alongside local workforce boards to help job seekers gain valuable training and skills to enter and stay in the workforce.

Governor Mike Parson signed Executive Order 19-03 in January 2019 to move the Division of Workforce Development and the Missouri Economic Research and Information Center under the Department of Higher Education, with the transformation and new department name legally taking effect on Aug. 28, 2019.

In its first three years, MDHEWD faced unpredictable and unprecedented challenges such as casting a vision for a new department and navigating the COVID-19 pandemic. During FY 2022, the Coordinating Board for Higher Education developed and approved a new strategic plan. The new strategic plan, *Building Missouri's Future: A strategic plan to provide pathways and reduce barriers to educational attainment and workforce participation*, will guide initiatives and priorities in Missouri for the next three to five years. The plan was created using data to determine statewide needs and compare Missouri to other Midwestern states. It outlines a comprehensive plan for education, training, and the public workforce system to encourage economic growth and personal success among Missourians.

To meet workforce demands and continue to help our residents compete in a global economy, Missouri will strive to be the best among other Midwestern states in educational attainment and labor force participation by 2030.

Three main goals were established as part of the new strategic plan: To reach 60 percent educational attainment and 70 percent labor force participation, with equity goals aligned for both, and a third internal goal to be the Best Place to Work in state government.

Several indicators for each target will be tracked each year to see if Missouri is moving in the right direction toward meeting its goals. Initiatives to help reach the goals were started in January 2022.

ACCESS

- During FY 2022, the department launched an Adult Learner Network to help share best practices and improve the student experience and access for adult learners. The initiative brought together more than 40 colleges and universities, local chambers of commerce, and college access groups to create a common definition and language around adult learners, to understand adult learners and their needs, and to innovate and change the educational model. A Student Journey Mapping event was held with 12 institutions to tackle portions of adult learner experiences and troubleshoot ways to make improvements.

SUCCESS

- A mental health task force was formed to address growing concerns around helping students succeed in college. In addition to the task force, a joint initiative with the Missouri Department of Mental Health, the Office of Communications & Outreach, and the Office of Postsecondary Policy created an online hub with resources, videos, blog posts, playlists, and affirmations centered around student mental health and training the brain to be more positive. HappierU is found on the journeytocollege.mo.gov website.

AFFORDABILITY

- More than \$139 million in state financial aid was awarded to 59,596 Missouri students through nine grant and scholarship programs, including the A+ Scholarship, Fast Track, Access Missouri Grant, Bright Flight Scholarship, and a new Dual Credit/Dual Enrollment scholarship for high school juniors and seniors. Under Senate Bill 672, passed by the General Assembly in May 2022, are provisions that extend the Fast Track Workforce Incentive Grant through Aug. 28, 2029, and eliminate the possibility of the grant being converted into a loan if residency and work requirements are not met.

BEST PLACE TO WORK

- Initiatives were identified to focus on department effectiveness and culture. An internal group was identified to help establish a mentoring program, while another group focused on operationalizing department values.

PROGRAM APPROVAL

- The department approved the addition of 152 new academic programs and the deletion or inactivation of 91 programs at Missouri's public colleges and universities. The department also reviewed 87 new academic programs, while deactivating or deleting 69 programs, offered by the state's independent institutions.

MOEXCELS

- Seventeen proposals totaling \$21.8 million were funded in FY 2022. Twenty-eight proposals totaling \$50.7 million were submitted for FY 2023, with 19 proposals totaling \$31.4 million approved. MoExcels funding was earmarked to facilitate the development and expansion of employer-driven education and training programs and initiatives to substantially increase educational attainment.

89,202 certificates & degrees were awarded by Missouri public, independent, and proprietary colleges and universities during the 2021-22 academic year.

313,400 students were enrolled at Missouri's public two- and four-year and independent colleges and universities in 2021-22.

APPRENTICESHIPS & WORK-BASED LEARNING

- Missouri ranked third in the nation for completed apprenticeships, fourth in the nation for new apprentices, and sixth for active apprentices. In 2019, Missouri established a goal of having 20,000 apprentices by 2025. Apprenticeship Missouri surpassed this milestone 30 months ahead of schedule, celebrating the milestone in May 2022. Missouri had 20,285 newly registered apprentices, and 8,140 completed apprenticeships at the time of the announcement.
- Additional growth in Apprenticeship Missouri is due to expanding industries and sectors offering apprenticeships, including a new program established in fall 2021 — Missouri Industry-Recognized Credentials. Industries supporting apprenticeships include agribusiness, bioscience, construction, education, energy solutions, financial solutions, health sciences and services, hospitality, information technology, manufacturing, and transportation and logistics.
- A 2022 initiative to work toward meeting department goals includes an initiative to expand Apprentice Ready programs, first launched in February 2021. A \$1 million investment of federal funds was used to create certified pre-apprenticeship opportunities, supporting pathways to Registered Apprenticeships. The expansion of this program is underway.

RESEARCH AND DATA

- The Office of Performance & Strategy released important data to demonstrate Missouri’s current economic situation, including monthly Jobs Reports, monthly Job Ad Comparisons, quarterly Real-Time Labor Market Summaries, the 2020 Economic Report and Business Survey, and many more.
- Work on the Students Right To Know data collection and display began in FY 2022 with a statutory deadline of October 2022. The collection of data, outlined in HB 1606, is designed to help students make informed decisions about their future. It includes information about the cost of attendance, student loans, graduate earnings, graduation rates, employment and salary outcomes, program costs, and time-to-completion.

Our Mission:

To put Missourians on a path to learn, work, and prosper.

Our Vision:

Every Missourian empowered with the skills and education needed for success.

Our Values:

Teamwork

Collaboration

Accountability

Work-Life Balance

Our Principles:

People-centered

Equity-focused

Impact-driven

Workforce-aligned

BUILDING MISSOURI'S FUTURE: A STRATEGIC PLAN TO PROVIDE PATHWAYS AND REDUCE BARRIERS TO EDUCATIONAL ATTAINMENT AND WORKFORCE PARTICIPATION

To meet workforce demands and continue to help our residents compete in a global economy, Missouri will strive to be the best among other Midwestern states in educational attainment and labor force participation by 2030.

A skilled, prepared, and motivated workforce is necessary to attract and retain businesses in Missouri. The department recognizes all training opportunities beyond high school as highly valuable. Apprenticeships and On-the-Job Training, short-term certificates, associate degrees, bachelor's degrees, and beyond all contribute to the economic health of the state.

Demand for workers with some form of postsecondary credential remains higher than the number of Missourians with those credentials. About 40 percent of jobs require some education and training beyond high school, but less than a bachelor's degree. Another 20 percent of jobs require a bachelor's degree or higher.

The benefits of increased education go beyond a paycheck. Postsecondary credentials continue to be good for communities as a whole – contributing to better health, a more engaged society, and lower incarceration rates, among others. Creating opportunities and removing barriers to education and training will help the state fill skills gaps and support the economy.

Three main goals were established as part of the new strategic plan: To reach 60 percent educational attainment, 70 percent labor force participation, with equity goals aligned for both, and a third internal goal to be the Best Place to Work in state government.

ANNUAL REPORT 2022

STUDENT PERSISTENCE

The Missouri Department of Higher Education & Workforce Development is continually working to increase student persistence by implementing initiatives, such as corequisite remediation, Missouri Math Pathways, the CORE 42, and 15 to Finish. Student persistence data represents the percentage of first-time, full-time degree-seeking students at Missouri colleges and universities who enroll in school the following fall.

Public universities

Incoming Cohort	Fall 2016	Fall 2017	Fall 2018	Fall 2019	Fall 2020

STATE STUDENT FINANCIAL AID PROGRAMS

State student financial aid disbursed during Fiscal Year 2022

Program	Number of Scholarships/Grants	Dollar Amounts
A+ Scholarship	14,181	\$49,297,552
A+ Dual Credit/Dual Enrollment Scholarship	1,526	\$665,599
Access Missouri Grant	36,083	\$66,725,613
Advanced Placement Incentive Grant	2	\$1,000
Bright Flight Scholarship	7,367	\$20,917,298
Fast Track Workforce Incentive Grant	391	\$1,609,807
Kids' Chance Scholarship	2	\$10,000
Minority and Underrepresented Environmental Literacy Program	7	\$29,132
Public Safety Officer Survivor Grants	14	\$89,344
Wartime Veteran's Survivors Grant	23	\$256,568
Totals	59,596	\$139,601,913

A+ Scholarship Program (Section 160.545 RSMo)

The A+ Scholarship serves graduates of A+ designated high schools, who meet certain academic and other requirements while in high school, and attend a participating public community college or vocational/technical school, or certain private two-year vocational/technical schools. Award amounts are based on the student's actual tuition and general fees after the Pell Grant, or other federal, non-loan funding, has been applied.

A+ Dual Credit/Dual Enrollment Scholarship (Section 160.545, RSMo)

The Dual Credit/Dual Enrollment program provides tuition and fee reimbursement for dual credit or dual enrollment coursework to high school students who take dual credit or dual enrollment courses from a Missouri college or university and meet the program's eligibility criteria. Awards are prioritized based on financial needs demonstrated by adjusted gross income. Students who qualify for any other non-loan aid applicable to their dual credit or dual enrollment tuition and fee charges will have their A+ Dual Credit/Dual Enrollment Scholarship reimbursement reduced by a corresponding amount.

Access Missouri Financial Assistance Program (Section 173.1101-1107, RSMo)

The Access Missouri Program provides need-based grants to students with an Expected Family Contribution (EFC) of \$12,000 or less, based on the Free Application for Federal Student Aid (FAFSA). Award amounts vary depending on a student's EFC, as well as the type of school attended. In Fiscal Year 2022, actual maximum and minimum award amounts were \$1,160 and \$300, respectively, for students attending public two-year institutions. For students attending public four-year institutions, State Technical College of Missouri, independent, and virtual institutions the maximum and minimum award amounts were \$2,540 and \$1,500, respectively.

Advanced Placement Incentive Grant (Section 173.1350, RSMo)

This is a nonrenewable grant designed to encourage high school students to take and score well on Advanced Placement exams in mathematics and science. To qualify for the \$500 award, students must achieve a grade of three or higher on at least two designated Advanced Placement exams while attending a Missouri public high school. Students must also receive an award under the Access Missouri Financial Assistance Program or the A+ Scholarship Program in the same academic year they receive this grant.

Fast Track Workforce Incentive Grant (Section 173.2553-2554, RSMo)

Launched in August 2019, Fast Track provides tuition assistance to adults at least 25 years old, or individuals younger than 25 who have not been enrolled in education in at least two years. Grant recipients receive financial assistance to work toward a certificate, degree, or industry-recognized credential that fills a high-need skills gap. After graduation, students must live and work in Missouri for three years to prevent the grant from converting to a loan.

The average award amount in Fiscal Year 2022 was \$4,117. Allied health, business/accounting, and computer science were the most popular program areas among grant recipients.

Higher Education Academic Scholarship, or “Bright Flight” (Section 173.250, RSMo)

This is a merit-based scholarship for students who achieve an ACT or SAT score in the top 5 percent on or before the June test date of their senior year in high school. Award amounts are tiered based on whether the student’s score is in the top 3 percent or top fourth and fifth percentiles. The qualifying scores are determined at the beginning of the student’s senior year in high school and are based on the scores achieved by Missouri seniors in the preceding graduating class.

Eligible students scoring in the top 3 percent may receive up to \$3,000 annually. The annual award for students scoring in the top fourth and fifth percentiles is up to \$1,000 annually. Students qualifying in the top 3 percent must receive the maximum \$3,000 award before students in the top fourth and fifth percentiles can be funded.

To be eligible in the top 3 percent in Fiscal Year 2022, high school seniors had to achieve:

- An ACT score of 31 or better or
- An SAT score of 780 in critical reading AND 800 in math

To be eligible in the top fourth and fifth percentiles in Fiscal Year 2022, high school seniors had to achieve:

- An ACT score of 30 or
- An SAT score of 770 to 779 in critical reading AND 790 to 799 in math

Students qualifying in the top three percent received a maximum award of \$3,000 in Fiscal Year 2022. The students qualifying in the top fourth and fifth percentiles were not funded. Unfunded students that maintain their eligibility may receive an award in the future if funding becomes available.

Kids' Chance Scholarship Program (Sections 173.254-173.258, RSMo)

This program, created in 1998, provides scholarships for children of workers who were seriously injured or died in a work-related accident or from an occupational disease covered by workers' compensation and compensable under chapter 287, RSMo. The scholarships are funded from the interest generated by the Kids' Chance Scholarship Fund. The fund contains \$1 million in principal resulting from the Division of Worker's Compensation deposits of \$50,000 per year made between 1998 and the final deposit in October 2018, as required by legislation.

Minority and Underrepresented Environmental Literacy Program (Section 173.240. RSMo)

This scholarship program assists academically talented minority and underrepresented individuals pursuing an undergraduate or graduate degree in an environmental course of study. Applicants are selected by the Minority Environmental Literacy Advisory committee based on academic achievement as evidenced by grade point average and standardized test scores, involvement in school and community activities, and leadership characteristics. MDHEWD determines award amounts based on the amount of funding appropriated to the program and the number of eligible applicants.

Public Safety Officer or Employee's Child Survivor Grant Program (Section 173.260, RSMo)

This is a grant program for public safety officers who were permanently disabled in the line of duty. Children younger than 24 years old who are dependents of officers or dependents of Missouri Department of Transportation employees engaged in the construction or maintenance of the state's highways, roads, and bridges, and were killed or totally and permanently disabled in the line of duty are also eligible. Eligibility also extends to spouses of officers killed or totally and permanently disabled in the line of duty. The maximum grant amount is the lesser of the actual tuition charged at the school in which the student is enrolled full-time, or the amount of tuition charged to an undergraduate Missouri resident enrolled full-time in the same class level and academic major at the University of Missouri-Columbia. The grant may be renewed annually until the student obtains a baccalaureate degree or, in the case of a dependent child, until the student is 24 years old, whichever occurs first.

Wartime Veteran's Survivors Grant Program (Section 173.234, RSMo)

This program was designed to provide up to 25 grants for tuition assistance, room and board, and books for students who are survivors of post-9/11 war veterans whose deaths were a result of combat action or were attributable to an illness contracted while serving in combat, or who became at least 80 percent disabled as a result of injuries sustained in combat. Although the Wartime Veteran's Survivors Grant program became effective in 2008, the first award was made in 2011, which was the first year funds were appropriated for this program.

ANNUAL REPORT 2022

ACADEMIC PROGRAM ACTIONS

The Coordinating Board for Higher Education has a statutory responsibility to approve new academic programs and program changes, regulate the off-site delivery of existing programs, and approve the establishment of residence centers and instructional sites by public higher education institutions.

Independent institutions are requested to submit proposed new programs and programmatic changes for review and comment. The program must be reviewed as a stipulation for inclusion in the statewide inventory of approved programs.

The following charts summarize the number of programs added, deleted, inactivated, withdrawn, and conducted off-site for public and independent institutions during Fiscal Year 2022.

Public Institutions

Action	Certificate	Associate	Baccalaureate	Graduate	Total
Deleted	11	0	11	8	30
Inactivated	16	5	32	8	61
Program Changes*	82	33	74	66	255
New**	84	29	28	11	152

Independent Institutions

Action	Certificate	Associate	Baccalaureate	Graduate	Total
Deleted	1	0	8	3	12
Inactivated	12	1	37	7	57
Program Changes*	2	3	40	20	65
New**	25	10	39	13	87

Provisional Programs

Action	Two-Year	Four-Year	Total
Recommend full approval	11	14	25
Recommend review in two years	2	7	9
Programs deleted or inactivated	1	3	4

*Includes options added, inactivated, and deleted, titles changed, CIP changes, and programs combined

** Includes certificates added through the program change process at the main campus and off-site locations

PROPRIETARY SCHOOL CERTIFICATION & ENROLLMENT

The Missouri Department of Higher Education & Workforce Development (MDHEWD) oversees operating standards for proprietary schools to ensure students are treated fairly and receive education and training consistent with the published objectives of the schools. Certified schools provide education and training in more than 1,000 degree and certificate programs.

During Fiscal Year 2022, department staff renewed the certification of 138 main and branch campuses in Missouri and 14 main and branch recruit campuses. Staff certified 15 new locations in Missouri and approved 13 schools for exemption from certification standards. The department also monitored the closing of nine institutions.

The number of students enrolled in a Missouri private career school in FY 2022 increased to 27,659. Student recruitment into programs out-of-state or via distance education decreased from 2,250 to 2,018.

CORE BUDGET RECOMMENDATIONS

The Coordinating Board for Higher Education's budget recommendations for state-supported public colleges and universities for the forthcoming biennium are:

Institution	Fiscal year 2023 core funding	Fiscal Year 2023 restrictions	Fiscal Year 2024 core requested increase
Community Colleges	\$161,863,323	\$0	\$11,330,433
State Technical College	\$8,464,011	\$0	\$592,481
University of Central Missouri	\$60,486,063	\$0	\$4,234,024
Southeast Missouri State University	\$50,146,167	\$0	\$3,510,232
Missouri State University	\$102,742,970	\$0	\$7,192,008
Lincoln University*	\$28,983,697	\$0	\$2,028,859
Truman State University	\$45,534,649	\$0	\$3,187,425
Northwest Missouri State University	\$34,086,363	\$0	\$2,386,045
Missouri Southern State University	\$28,374,099	\$0	\$1,986,187
Missouri Western State University	\$24,315,659	\$0	\$1,702,096
Harris-Stowe State University	\$11,434,137	\$0	\$800,390
University of Missouri	\$454,956,797	\$0	\$31,846,976
Four-Year Institution Subtotal	\$841,060,601	\$0	\$58,874,242
Total All Sectors	\$1,011,387,935	\$0	\$70,797,156

Note: Core increase includes a New Decision Item (NDI) for a 7% inflationary increase.

* Lincoln University request includes the land-grant match.

ENGLISH LANGUAGE PROFICIENCY REPORT

Missouri universities with graduate programs regularly assign teaching assistantships to international students. Missouri statute requires all graduate students who did not receive their primary and secondary education in a nation or territory in which English is the primary language to be tested for their ability to communicate orally in English in a classroom setting.

Institutions are required to provide data every two years on the number and language background of all graduate teaching assistants (GTAs) and must provide a copy of the institution's policy for the selection of these teaching assistants. While all institutions are required to submit biennial reports to the board, the effectiveness of programs for non-native English speakers with graduate teaching assistantships is monitored at the institutional level.

GTA English Language Proficiency Survey Results	Academic Year 2019	Academic Year 2020
Non-Native English Speaking GTAs	629	634
All GTAs	2,140	2,096
% Non-Native English Speaking GTAs	29.4%	30.3%

Highlights for the reporting period:

1. While the decrease in the overall number of GTAs in AY2020 may be due in part to COVID-19, the total number of GTAs has decreased steadily since its peak in 2016.
2. The number of non-native English speakers has been increasing since 2016 and comprise approximately 30 percent of all GTAs.
