Planning for Financial Success
2016-17
Take charge of your future — focus on your finances

As a student, you will face many new challenges as you finish high school and head to college or directly into the workforce. Choosing a school and a career that is right for you can have a huge impact on your future. How you manage your money is equally important. There is a lot to learn about financial aid, credit cards, living a practical lifestyle and basic money management.

Smart financial decisions made today can keep you on the right path well into the future. Likewise, poor financial decisions can produce negative consequences years down the road. Planning for financial success can help you reach your college and career goals and realize your potential.
Look into all forms of financial aid

A variety of financial assistance programs are available to help you fund your college education. Scholarships, grants and work-study assignments are available to students of all ages and backgrounds. Consider all types of financial aid from federal, state, institutional and local sources each year you are in school.

Find out if you qualify for financial aid.

Federal student aid
studentaid.gov
• Federal Pell Grant
• Federal Supplemental Educational Opportunity Grant (FSEOG)
• Teacher Education Assistance for College and Higher Education (TEACH) Grant
• Iraq and Afghanistan Service Grant
• Federal Work Study
• Direct Subsidized Loan
• Direct Unsubsidized Loan
• Direct PLUS Loans
  - Parents of dependent undergraduate students
  - Graduate and professional students

State student aid
dhe.mo.gov/ppc/grants
• A+ Scholarship
• Access Missouri Grant
• Advanced Placement Incentive Grant
• Bright Flight Scholarship
• Kids’ Chance Scholarship
• Marguerite Ross Barnett Memorial Scholarship
• Minority Teaching Scholarship
• Minority and Underrepresented Environmental Literacy Program
• Public Service Officer Survivor Grant
• Vietnam Veteran Survivor Grant
• Wartime Veteran’s Survivors Grant

The first step for most of these programs is to complete and file a Free Application for Federal Student Aid (FAFSA) (fafsa.gov). File your FAFSA as soon as possible after October 1 each year. File your FAFSA by the February 1 priority deadline or by the April 1 final deadline to be eligible for the Access Missouri Grant. Check to see if your institution has an earlier priority deadline. Other Missouri state aid programs may have different deadlines. Visit dhe.mo.gov/ppc/grants for more information.

If you need assistance completing the FAFSA, free help is available through the FAFSA Frenzy program. To find out more information or look for events near you, visit dhe.mo.gov/ppc/ffasafrenzyforstudents.php.

Identify and follow up on scholarship opportunities.

• Do as much research as you can, and apply for every scholarship for which you think you may be eligible.
• Follow Journey to College on Facebook or Twitter for various scholarship opportunities and deadlines.
• Meet deadlines! Most programs have limited funding and may not even consider late applications.
• Do not overlook scholarships within your major.
• Contact the financial aid office at your college with any questions or concerns.

Know what it takes to keep your financial aid.

• For all forms of financial aid, be aware of grade point average, enrollment status and other requirements that must be met in order for you to keep receiving financial assistance each year.
• Do not forget, your FAFSA must be filed annually.
Consider student loans carefully

College can be expensive. Your objective is to limit the amount of student loans you have to borrow and, ultimately, pay back. If you decide to take out a student loan, use federal loans first because fees and interest rates tend to be lower and are capped. Consider alternative or private loans only as a last resort. You have the right to reject a portion or all of the loan amounts presented in your financial aid award letter. Borrow only what you need, and follow an academic plan to reduce unnecessary costs.

Manage your student loans.
Keep records regarding your loan(s). Make copies of all letters, canceled checks, receipts and any forms you sign.

If you have a Direct Subsidized Loan, the federal government will pay the interest on that loan while you are continuously enrolled at least half time or in deferment.

However, if you have a Direct Unsubsidized Loan, interest will begin accruing immediately after the first disbursement. It will continue to accrue until the principal balance of the loan is paid in full. So, while it is not mandatory, you are encouraged to make interest payments on Direct Unsubsidized Loans while you are still in school. If you do not, the loan will cost you significantly more in the long run.

Use the National Student Loan Data System (NSLDS) at nslds.ed.gov to access your student loan account and determine your total debt and the servicer(s) of your loans. You may also retrieve this information by calling 800-4-FED-AID. You will need your FSA ID to access your NSLDS records (studentaid.gov).

Be sure to contact your loan servicer(s) about any changes in your status or anything that may affect your ability to repay your loan. These changes include changing your address or name, transferring to another school, leaving school, or graduating.

Repay your student loans.
Remember, when you receive a student loan you agree to repay the loan even if you do not graduate, are unable to obtain employment, or are not satisfied with your education.

Your loan servicer should inform you of your repayment terms before you enter repayment. Your account will be placed on the Standard Repayment Plan unless you request a different plan from your loan servicer. To determine which repayment plan is best for you, use the repayment estimator at studentaid.gov.

- Standard Repayment
- Extended Repayment
- Graduated Repayment
- Income Based Repayment (IBR)
- Income Contingent Repayment (ICR)
- Income-Sensitive Repayment
- Revised Pay As You Earn Repayment (REPAYE)

There are no penalties for pre-paying your student loans before they officially go into repayment. For more information on these repayment plans, visit studentaid.ed.gov/sa/repay-loans/understand/plans.

Avoid default.
Communication with your loan servicer(s) and the use of smart financial practices will help steer you away from defaulting on your student loan. Unlike consumer debt, there is no statute of limitation on collecting federal student loan debt. Defaulting on a student loan can result in the following consequences:

- Damage to your credit rating
- Garnishment of your wages
- Withholding of your state or Federal Treasury payments (including tax refunds, Social Security benefits, etc.)
- Loss of professional licenses
- Civil lawsuit, with liability for court costs and/or legal expenses
- Loss of deferment entitlements and flexible repayment options
- Loss of eligibility for further financial aid
- Referral of your account to a collection agency, with liability for collection costs
- Requirement to pay the loan(s) in full
- Denial of employment
- Hold placed on your official college transcript
“Live like a college student now, so you do not have to later.” It might seem a little cliché, but this expression offers sensible advice. While you may dream of making big bucks upon graduation, your best bet is not to spend money as if you have already landed a great paying job. There are some basic things you can do today to help ease the financial burden.

**Be aware.**
- Keep track of everything running through your checking account and your student account.

**Be smart with your credit cards and other lines of credit.**
- Charge only the amount you expect to be able to pay when your billing statement comes each month.
- Never let anyone else borrow your card.
- Limit the number of accounts you have to one or two.

**Learn to say “no” to your friends.**
- Chances are, others are also feeling a financial pinch, so, every once in a while, suggest an alternative that requires less (or no) money.

**Avoid overspending on food.**
- If you live on campus, choose the meal plan that is best for your needs.
- If you live off campus, make a trip to the grocery store to stock up before you spend all your money on fast food.

**Take advantage of student discounts.**
- Ask for special student offers; it usually involves no more than showing your school ID card.

**Curb your vending machine usage.**
- Spending just a dollar a day in vending machines during a four-year degree program will cost over $1,000 more than purchasing the same volume of snacks from a grocery store.

**Stay away from rent-to-own stores, pawn shops, payday and title loans and check cashing stores.**
- The instant gratification you may get from using these businesses is sure to be overshadowed by the increased cost you pay for doing business with them.

**Consider all costs when thinking about moving off-campus.**
- Make sure you weigh all the costs of off-campus living, not just the cost of rent.
- Security deposits, utilities, food, cooking supplies, cleaning materials, insurance and basic household items should all factor into the decision and your future budget.

**Talk to your roommates about money matters.**
- Make sure it is clear up front what each person’s responsibilities are.
- Know what is shared and what is up to you to provide or contribute.

**Visit your school’s student employment office.**
- Campus jobs often have flexible work hours and save you the expense of commuting to an off-campus location.
- A campus job that relates to your major can also be a nice addition to your resume.

Financial tip

“College is not out of reach. There are hundreds of scholarships out there that you could apply for. Talk to people and do research about schools and tuition.”

_Brian B._
international relations major

St. Louis Community College–Meramec
Learn to create and use a budget

Create your own budget using this worksheet and these simple steps to make sure your money goes toward your needs first, and then your wants.

1. **Know how much money you have coming in.**
   - Employment
   - Family
   - Financial aid
   - Other

2. **Know how much money you have going out.**
   - Tuition
   - Living expenses
   - Books
   - Fees
   - Transportation costs
   - Insurance
   - Personal/discretionary expenses
   - Savings

3. **Establish a budget that works for you.**
   - Think of your budget as a spending plan, a way to be aware of how much money you have, where it needs to go, and how much is left over.
   - If your income does not cover your expenses, you will need to adjust your budget (and your spending) by deciding which expenses can be reduced and/or how income can be increased.

4. **Be realistic. Keep it simple. Give it time.**
   - Do not cut basic necessities or make your budget so restrictive that it becomes a chore instead of a useful tool.
   - You may need to make adjustments the first few months, but you will get the hang of it. Your budget will prove itself over the long term if you reevaluate as your income increases and circumstances change.
Manage your bank account wisely

You may already have a checking account and some experience using a debit card. And though the ground rules for maintaining your account while you are at school are pretty much the same as they are at home, there are a few pointers that can help keep you on track as you adjust to college life.

Record all transactions immediately.
• Keep track of every single purchase, payment and cash withdrawal you make. Forgetting may mean the difference between having enough money to get through to the end of the month and coming up short.
• Fill out your checkbook register with each transaction, even if you bank online.
• Check your balance online (and often), but do not automatically assume the account balance you see on your ATM receipt or your bank’s website is up to date.

Watch for ATM and debit card fees.
• If you are going away to school, but keeping your checking account with your hometown bank, you need to know if you will be charged a service fee for using other banks’ ATMs.
• You may want to consider getting a local account if you anticipate heavy ATM activity.
• Some accounts charge a fee for using a debit card as a debit transaction. Treating such purchases as credit transactions (when swiping your card) may help you avoid the fee.

Safeguard your account information.
• Sign the back of your debit card, memorize your unique personal identification number, and keep the card in a safe place that only you can access.
• Be wary of phishing expeditions that seek to gain your personal information online. If you receive an email that looks like it is from your bank, do not click on the link within the email message, and never provide details about your account. Contact your bank directly to verify its authenticity.

Balance your account regularly.
• Balance your account every month with your bank statement.
• Ensure no unauthorized transactions have occurred.

Create a savings plan

Taking charge of your finances should also involve regular contributions to a savings plan. As a college student, you may feel you are merely trying to get by one semester at a time; however, even small contributions made on a regular basis will work to your benefit. And the younger you start, the better off you will be — in terms of the smart habits you establish and the amount of money you will earn because of those habits.

Make it happen by paying yourself first.
• When you receive your paycheck or other money, deposit or electronically transfer a portion of the funds into your savings account.
• Ask your employer to directly deposit some of your earnings into your savings account.
• Save loose change in a jar and set a goal for how much you want to collect. At the end of each month, deposit your collection into your savings account.

Watch your savings grow.
• Even very small sums of money add up... over time... with interest. The interest that you earn today is added to your savings total, further increasing the amount of interest you earn in the future.

Get a jump start on fall tuition by landing a summer job or paid internship.
• Make arrangements to have some of your paycheck deposited into a back-to-school savings account. By completing this simple task, you may dispel the need to take out additional loans.
• Additionally, there are benefits of part-time jobs and internships while in school in terms of higher starting salaries upon graduation.
Use credit cards responsibly

Getting a credit card is easy. Sometimes it can be too easy, and college students are often targeted by credit card vendors. Keep the following tips in mind for responsible credit card use:

**Understand that any time you use a credit card, you are borrowing money.**
- If you do not pay off your balance each month, interest will be added to the total amount you owe.

**Think before getting your first credit card.**
Do you really need a credit card or would another option work just as well?
- Debit card — deducts charges directly from your checking account so you only spend money you have.
- Secured credit card — works similar to a credit card, except that a savings account is established specifically for the card to make payments if you do not.
- Waiting — just put off the decision for six months or a year and see how well you do without a credit card.

**Choose wisely.**
When selecting a credit card, you should shop around for the best deal. Compare different cards based on your own situation. Look for the following:
- Low fixed annual percentage rate
- Interest calculation method
- Low or no annual fees
- All other charges
  (late payment fees, transaction fees, over-the-limit fees, etc).
- Grace period
- Credit limit
- Services and features
  (cash rebates, frequent flier miles, extended warranties, etc.)

**Keep just one card.**
It will be easier to keep tabs on your spending.

**Think about ways you can track your expenses.**
- Check your account online frequently.
- Save receipts.

**Photocopy the front and back of your card or keep a record of the following in case your card is lost or stolen:**
- Account number
- Issuer’s name
- Phone number

**The bottom line: do not spend more than you can afford to pay on a monthly basis.**
- Wise use of your credit cards will help you establish a solid credit rating and avoid financial problems.
- Find a credit card that best fits your financial needs at bankrate.com/credit-cards.aspx.

"Set a weekly or monthly budget for yourself and stick to it. I also find it handy to download an app on my phone to easily access my credit card account and to ensure that I am aware of the amount I have charged."

Danielle L.

Review your credit report regularly

Your credit report is a collection of information about you and your credit history, and it can have a major impact on your life.

Know whether you have a credit report.
You have a credit report if you have ever applied for any of the following:
- Credit card
- Auto loan
- Student loan
- Mortgage

Understand who looks at your credit report.
- Potential creditors
- Government licensing agencies
- Landlords
- Insurance underwriters
- Potential and current employers

Know what these entities are asking.
- How promptly do you pay your bills?
- How many credit cards do you have?
- What is the total amount of credit extended to you?
- How much do you owe on all of your accounts?

Know what is NOT on your credit report.
- Checking or savings account information
- Medical history
- Race
- Gender
- Religion
- National origin
- Political preference
- Criminal record

Be aware of how long information stays on your credit report.
- Positive information — indefinitely
- Inquiries — six months to two years
- Most negative information — seven years
- Some bankruptcies — 10 years

Request your free credit report.
AnnualCreditReport.com
- You are entitled to one free credit report a year from each of the three credit reporting agencies — Equifax, TransUnion, and Experian.
- Be wary of websites with similar names that may require you to pay for a service in order to receive your free credit report.

Check your three credit reports at least once a year.
- Check all three at once, or one at a time throughout the year.
- Make sure the information is accurate.
- Report information that is not accurate.

Know your credit score.
- Your credit report is free, but you usually have to pay to receive a credit score.
- Various components of your credit history are evaluated to determine your credit score, including:
  - Payment history
  - Outstanding credit owed
  - Length of time your credit has been active
  - Types of credit you have
  - Acquisition of new credit

Be aware of the consequences of credit mistakes.
Any negative information found on your credit report (late payments, bankruptcies, too much debt) can have a serious impact on your ability to:
- Get credit
- Get a new job
- Advance in your current job
- Rent or buy a home

Know what IS on your credit report.
- Personal identifying information
- Credit account information
- Public record information
- Inquiries

Improve your credit score.
If you have had financial problems, take these steps to clean up your credit:
- Pay off your current debt.
- Make your payments on time.
- Do not sign up for any new credit cards.
- Stop using your credit cards for new purchases.
- Keep your oldest account open, even if you no longer use it.
Prevent identity theft

Identity theft is the fastest growing crime in the United States. Perpetrators use someone else’s personally identifying information to commit fraud, including borrowing money in another person’s name. Victims of identity theft often face debt and credit problems that require extensive time and effort to sort out.

Millions of Americans have fallen victim to identity theft. The stereotypical college student who is careless with personal information and unaware of credit changes can be an enticing target for a would-be identity thief. Do not become a statistic!

Keep your information safe.
- Protect your Social Security number.
- Do not give out personal information unless you know who you are dealing with.
- Shred financial and personal information.
- Use firewalls, anti-spyware and anti-virus software on your electronic devices.
- Do not use obvious passwords.
- Keep your personal information in a secure place.
- If you pay bills by mail, send your payments through a postal mailbox instead of leaving it for a carrier in your home mailbox.

Monitor your financial information.
Review your various financial accounts and statements on a regular basis. Request a free copy of your credit report at AnnualCreditReport.com every year and review it. Be alert to the following items that require immediate attention:
- Statements containing purchases you did not make
- Calls or letters about purchases you did not make
- Bills that do not arrive as expected
- Unexpected credit cards or account statements
- Denials of credit for no apparent reason

Act quickly when you suspect identity theft.
Review the Federal Trade Commission’s information at ftc.gov/idtheft on what to know and what to do in the case of identity theft. You should also understand identity theft as it relates to student loans and financial aid. For instance, a federal student loan may be canceled if it was falsely certified as a result of the crime of identity theft. It is important to check NSLDS regularly while you are in school to make sure that you have actually received all/any financial aid listed for you. If you have any suspicions of fraud or identity theft, contact the U.S. Department of Education’s Ombudsman immediately. Visit studentaid.ed.gov/repay-loans/disputes/prepare/contact-ombudsman for more information.
Explore career options

With more than 800 occupations to consider, choosing a career can be a challenge. To help with this decision, the Missouri Department of Economic Development issued a report, “The ABCs of Missouri Career Grades 2012–2022,” that shows which occupations have the best outlook over the next several years. Occupations are graded A through C. Grades are based on a combination of job openings, percent growth and the average wages of an occupation. The complete report can be found at missourieconomy.org/pdfs/career_grades.pdf.

The following charts show the occupations with the best outlook and those with the most job openings.

Grade A careers
• These careers have the best outlook with average or above projected growth rates, total openings and wages when compared to all occupations in the state. These occupations are expected to grow at nearly double the rate of the state average over the next decade. Grade A careers cover a wide range of career opportunities and require short, medium and long term education and training.

Grade B careers
• These careers account for the largest number of current Missouri workers and are projected to produce the largest number of total openings from 2012 to 2022. The average annual wage for these careers is slightly below the state average and openings will occur at all levels of education and training.

Grade C careers
• These careers represent a large portion of Missouri’s current workforce and are expected to experience a smaller than average growth during the projected period and require a lower level of education and training.

Before choosing a career:
• Think about the type of education or training required for your chosen career. Do your research and decide on a major or program you can stick with. Changing your course of study will increase the time it takes to finish school and, in turn, the cost of your education.
• Use the Missouri Department of Higher Education’s “College and Degree Search” (collegesearch.mo.gov).
• Consider the total cost of your educational program compared to the potential salary you will earn. Keep your future salary in mind when deciding what you can afford to borrow (and repay) in student loans while attending school.

Refresh your financial literacy skills

Everyone’s financial situation is unique, and sometimes it seems like too much information to track. Analyzing the options to see which are best for your personal circumstances can be daunting. If you bypassed personal finance in high school or need a quick refresher, there are a variety of avenues available to learn the basics.

**Practical Money Skills**
practicalmoneyskills.com/games
Several games are available including “Financial Football” and “Financial Soccer.”

**Budget and goals**
practicalmoneyskills.com/calculators
Developing a spending and savings plan can help you live within your means. It can also help you plan for the future. Use the budget calculator to take an objective look at your income and expenses to create a plan that will best help you meet your financial goals.

**Student loan repayment estimator**
studentaid.ed.gov/sa/repay-loans/understand/plans#estimator
Use the repayment estimator to help you choose a repayment plan you can afford.

**Savings and investments**
practicalmoneyskills.com/calculators
The accumulation of interest will show you just how valuable saving and investing can be. Whether you are looking to save a million or planning to invest your money, these calculators will show you how much your account will be worth in the future, including the amount of interest earned.

**Manage your accounts online**
mint.com
Mint.com brings all your financial accounts together online, automatically categorizes your transactions, lets you set budgets, helps you achieve financial goals, and lets you customize electronic alerts linked to your financial account.

Seek help when you need it

Maybe you have tried everything, but you are still having difficulty paying your bills on time. It may be time to speak to a professional credit counselor.

**Consumer credit counseling calls and sessions are confidential.**
A credit counselor can help you deal with:
- Financial responsibilities
- Creditor calls
- Pending consumer legal action against you
- Purchasing a home
- Bankruptcy
- Repairing and rebuilding your credit
- Reading credit reports
- Getting back on the road to financial success

To contact a credit and debt counseling agency, visit yellowpages.com and search for credit and debt counseling or contact the Association of Independent Consumer Credit Counseling Agencies (aiccca.org) or the National Foundation for Credit Counseling (nfcc.org). Be sure to choose a nonprofit organization.

If you are having trouble making your federal student loan payments, contact your servicer(s) immediately to learn about your different repayment options.

---

**Financial tip**

“For me, the best way to save money has been to simply keep track of how much money I make each pay period. After I establish that, I set myself a budget.”

**Dalton C.**
biology major
A+ recipient
Metropolitan Community College–Maple Woods
Ten ways to graduate with less debt

1. **Complete** the FAFSA annually.

2. **Understand** the federal grants available to you.

3. **Research** state scholarship and grant programs.

4. **Apply** for institutional scholarships.

5. **Explore** private scholarships.

6. **Inquire** about work programs available on your campus.

7. **Set up** a payment plan for your tuition.

8. **Secure** summer employment.

9. **Invest** in MOST, Missouri’s 529 college savings plan.

10. **Live** like a college student now, so you do not have to later.

1. FAFSA filing deadline for Marguerite Ross Barnett scholarship for the 2016–2017 academic year.¹

2. Are you ready to live like a college student?²

3. Be smart when approached by credit card vendors.³

¹ Learn more about funding your education on pages 4–7.
² Save money whenever you can so you do not end up paying for it later. See pages 8–9 to learn more.
³ Tips for using credit cards responsibly can be found on pages 14–15.
Did you know? If you take 15 credit hours per semester, you can graduate with a bachelor’s degree in four years.

Know what is on your credit report and clean it up, if necessary. See pages 16–17 to learn more.

Using financial calculators is easy. See page 24 for more details.

Check your credit report through Equifax.¹

Use online calculators to help manage your income.²
Did you know? You can receive free help completing the 2017–2018 FAFSA at a FAFSA Frenzy event near you starting in November.

1 Take advantage of financial aid opportunities. See pages 4–7 to learn more.

2 Banking in college does not have to be hard. Learn more on page 12.

3 Halloween money saving tip: make your own costume instead of buying one.

File your 2017–2018 FAFSA as soon as possible.¹

Are you keeping track of your debit card and student account transactions?²

¹ Halloween²

Columbus Day
Thanksgiving Day

Did you know? Tobacco use can take a toll on your budget. If you smoke a $6 pack of cigarettes a day, from age 18 to age 65, you will send $102,930 up in smoke!

1 Time to fall back. Set your clock back one hour.
2 Veterans and their families may be eligible for valuable higher education benefits. To learn more, visit va.gov.
Did you know? If you graduate in December 2016, your six month grace period or loan repayment will start the day after you graduate.

Creating a budget you can stick to is easy. See pages 10–11 for help.

Get a realistic idea about salaries and job opportunities on pages 20–23.

Do you have a budget in place for the new year?

Any idea how much money you could make after you graduate?
