Journey to College ^{K-8}

Dear Counselor:

Thank you for participating in the Journey to College K-8 Program! The Missouri Department of Higher Education & Workforce Development is excited to provide resources to support college- and career-oriented activities at your school.

Within this resource manual you will find a list of activities, resources, and a variety of promotional materials available upon request. Customize and tailor these activities to maximize student engagement at your school.

Also, we created most of the activities in a hybrid format so that you and your students are able to engage in-person and virtually. We've provided several links to short videos and included several printables. If students don't have access to a printer, they could simply write or draw their answers instead.

We look forward to working with you. If you have any questions or stories to share, we would love to hear from you. Send all questions and testimonials to the Journey to College Team at journeystocollege@dhewd.mo.gov or to your regional Outreach Services Coordinator.

Sincerely,

The Journey to College Team

Career Day Tip Sheet

How do I find speakers?

Create a list of different professions and ask for volunteers in your community to participate. Consider asking teachers and staff at your school for referrals and/or contact the local chamber of commerce for assistance.

What format do I use?

Depending on how many grades and classrooms you want to include in this activity, you'll need to decide if you want to host an assembly event or ask speakers to rotate through classrooms. If rotating between classrooms, remember to allow enough time for transitions and questions.

Before Career Day

- Provide a list of questions and topics to the speakers in advance.
- Ask students to write down their own questions.

After Career Day

Have students sign and/or create thank you cards to give to the guest speakers.

Sample Career Day Questions for Guest Speakers

- Describe a typical day of work.
- Describe your job duties.
- How do you use technology in your career field?
- What school subjects, if any, do you use for your job?
- What type of education and training is needed for your profession?
- What skills are necessary for your job?
- What do you like most about your job?
- What do you like least about your job?
- How did you get interested in this career field?
- What would people be surprised to know about your job?

ABC Career Challenge activity instructions

Instruct students to write a career that starts with each letter of the alphabet on the activity sheet. Once the students have completed the activity, lead a classroom discussion about the different careers listed.

Activity Options:

- This challenge can be conducted with students individually or in small groups.
- Add a speed round to see who can complete their list first or see who can write down the most careers in a certain amount of time.
- Recognize students who list careers not listed by any other students.

Discussion:

Lead students in a discussion about the careers listed during the challenge.

- If there are a lot of common answers (example: doctor) ask the students to list different kinds of that career.
- For unique careers, ask the students if that is a career any of them would be interested in pursuing and what it would take to enter that career field.
- Compare all careers on the board and ask the students if they think the careers would have similar job details, salaries, and training/college requirements.

MoSCORES Tip Sheet

What is MoSCORES?

MoSCORES is a powerful tool that allows students to search college degrees and certificates while also looking at how much it will cost, the types of students who are taking the program, if they graduated, if they were able to find a job, and how much money they are earning. The tool can also compare one degree program with another – both traditional credit hour programs as well as short term certificate programs earning industry recognized credentials. Note: You don't have to have a log-in to use it.

Learn more about MoSCORES

- *What is MoScores? (Two minute video): <https://jobs.mo.gov/files/what-moscotes-0>*
- *How to use MoScores (Four minute video): <https://jobs.mo.gov/files/how-use-moscotes>*

Link to MoSCORES: <https://scorecard.mo.gov>

The screenshot shows the MoSCORES website interface. At the top, the MoSCORES logo is displayed in white on a dark blue background. Below the logo, a navigation bar shows the path: > Job.Mo.Gov > Training and Education > Search. The main heading is "Education and Training Program Search". There are three main sections for filtering the search:

- General Search:** Includes a text input for "School/Program", and dropdown menus for "Degree/Credential Type", "Field of Study", and "School".
- Search by Location:** Includes a text input for "Location (Zip Code)", a dropdown for "County", and a "within" field with a text input and "miles of my location" label. There is also an "or Region" dropdown.
- Filter By:** Includes a dropdown for "Occupation Group of Study" and four checkboxes: "WIOA approved only", "Offered online only", "Transfer degree programs", and "Apprenticeship programs".

At the bottom, there are three buttons: "Search" (blue), "Clear All", and "Cancel".

- Once the student enters information into the search options, a list of degree programs and schools will be narrowed down based on the information provided.
- From there, students can compare different programs, schools, distances to their hometown, and tuition costs.

Missouri Connections Tip Sheet

Missouri Connections is an online tool to help students better understand their interests, explore their talents, and to learn about college and careers. Students can make a connection between school, learning, and their future in the workforce. They can investigate career options and create a plan, take assessments to learn about career and education opportunities, and explore real data points around cost of living, career salaries, and high-demand career opportunities.

Missouri Connections is offered by the Missouri Department of Elementary and Secondary Education. Check with your school counselor to find your school's username and password to allow students the opportunity to log in and save their portfolios.

Getting students connected. Visit missouriconnections.org.

1. Log in to Missouri Connections.

- Students can log in as a guest if your school does not have a username and password. They will not be able to save their information within the site, but can print their assessments and other information.

2. Create a customized portfolio.

- Students will have quick access to assessment results, college and scholarship lists, and other career information.
- Information will stay with a student through middle school, high school and college.
- Students can create calendars of future coursework, school applications, and other career activities.

3. Develop a career path.

- Assessments and occupation information help students explore all career options and help students understand their own interests.
- Students can draft a career plan and update it each year.
